

LUXAFLEX® EVO MAGNATRACK AWNING

Disclaimer

The representations made by Hunter Douglas Limited in relation to the Luxaflex® Evo MagnaTrack Awning are based on the testing conducted, and the report prepared, by James Cook University Cyclone Testing Station, College of Science and Engineering dated 12 March 2020. A copy of the report is available on request. Hunter Douglas Limited is not responsible for verifying or confirming any of the information contained in the Report and you must exercise your own care and skill to assess the relevance, reliability, accuracy or completeness of the information contained in the Report.

You acknowledge that the findings as to the strength and durability of the Luxaflex® Evo MagnaTrack Awning set out in the Report are based on testing conducted within a controlled laboratory environment. As a result, the findings set out in the Report may not accurately reflect the uncontrolled nature of the outdoor environment or your use of the Luxaflex® Evo MagnaTrack Awning.

Hunter Douglas Limited therefore does not accept any responsibility or liability for any costs, expenses, loss or damage suffered by you in connection with your reliance on the Report and or use of the Luxaflex® Evo MagnaTrack Awning including for, but not limited to, any failure to follow installation, use or care instructions, exposure to corrosive environments or extreme weather conditions, deterioration, discoloration or general fair wear and tear or any other act of God such as floods, fires, cyclones, hurricanes, earthquakes, explosions and other events outside Hunter Douglas Limited's control.
